THE CCC OF WORLD WAR II

Causes, Course, and Consequences

Causes _____

We said that the First World War was the result of Militarism, Nationalism, Imperialism, and an Alliance system, and historians tell us that many of those same forces were at work in the 1930s prior to and during the Second World War. In this section of the packet, you will learn about and describe five key causes of WWII: economic instability, nationalism, totalitarianism, imperialism, and appeasement.

1. Economic instability 💵 : desperate times call for desperate measures, they say. We discussed the crumbling of economic security in Germany at the beginning of this unit but peep the video in Canvas if you need a refresher.

When was the so-called Weimar Republic in control in Germany? _____ to _____

One of the key problems in Weimar Germany was *hyper*inflation. What is the definition of **inflation** ?

Inflation (n) -

2. Nationalism 🚩 : read one (or all) of the articles linked on Canvas, then fill in the following boxes.

Define *nationalism:*

Name 3 countries were **nationalist** during WW2?

1)

2)

3)

List three reasons the authors give for why nationalism is ***dangerous***.

1)

2)

3)

3. Totalitarianism : Although Adolf Hitler is probably the better known, the original vision for a fascist state was concocted by Benito Mussolini, and Hitler took much inspiration from Mussolini's rise to power in Italy. Use the section called "Mussolini's Totalitarian Rule" and "Characteristics of Fascism" on pages 332-34 to fill out the boxes below.

5. Appeasement 😨 : Historians don't have many good things to say about Neville Chamberlain,. Refer to the source in Canvas, as well pages 357 and 359-60 to better understand this concept.

Define *appeasement:*

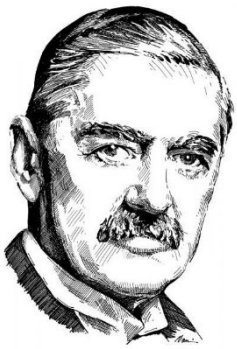

After watching the video, does it seem like people supported him?

Why would Chamberlain, and others, advocate a policy of **appeasing** Hitler's aggression?

Look at the political cartoon to the right. What message is the cartoonist trying to convey?

How does this cartoon connect to *appeasement*?

My good friends, for the second time in our history, a British Prime Minister has returned from Germany bringing peace with honour. I believe it is peace for our time. We thank you from the bottom of our hearts. Go home and get a nice quiet sleep.

Neville Chamberlain, speaking at Heston Airport, 30th of September 1938

Course _____

The Second World War was the largest conflict in history. Over the course of 6 years and 1 day, soldiers from almost every country participated in the war, totaling more than 100 million people directly involved in the fighting, from Moscow to Midway. It was also the deadliest conflict, with fatalities estimated at around 80 million. Many of these deaths were the result of targeted killings and even genocides, such as the Holocaust. War crimes such as these made people question humanity. Although WWII was the only time that nuclear weapons were used in battle, the global political environment was forever changed after the war ended.

7	Preparation	
8		
9		Armed forces work with militias to kill targeted groups
10	Denial	

4. ACTYP 🤝 Even before the war was over, the Allied powers were making plans for how to rebuild the world after the devastating conflict. The so-called "Big Three" of WWII – Stalin, Roosevelt, and Churchill – met at the Atlantic, Cairo, Tehran, Yalta, and Potsdam conferences. But I just want you to learn about three of them. See the pages in the text to get started.

5. Atomic Bombs 💣 The development and eventual use of nuclear weapons not only changed the course of WWII, but would go on to influence the postwar period, probably more than anything else that happened during the war. Use your textbook and online resources to answer the following questions.

The United States _____ _____ was a major program of research and development to develop and use the world's first nuclear weapons as part of the effort to end WWII. During the top-secret plan, reactors, power plants, and in some cases entire cities were constructed as part of the effort. Key project sites included _____ _____ in Tennessee, _____ _____ in New Mexico, and _____ in Washington. Ultimately, two bombs were developed over a period of four years: _____ ____, which was dropped on the city of _____ in the country of _____ on the _____th day of _____, 1945; then, three days later, _____ _____, which was detonated at the city of _____, also in Japan.

Label the two bombed cities on the map

Consequences

In addition to the massive amount of death and destruction, the world was forever changed by the events of the Second World War. A new international body known as the United Nations was founded, to prevent World War III from happening. Maps were changed as countries and their borders were redefined. While some criminals of war were brought to justice, there was no way to fully account for the number of lives physically and emotionally upended.

1. Casualties ☠️ Watch the video linked in Canvas (also at https://vimeo.com/128373915) and answer the following questions concerning the human cost of World War 2.

What was the average age of military deaths?

The film says about as many Americans died in the Normandy invasion as in the entire _____ War

Most Nazi soldiers died in the _____ Front, Germany's unsuccessful invasion of the _____ Union.

The Soviet Union eventually defeat ed the once unstoppable German Army, killing _____ million Nazi soldiers.

_____ million is the official tally (of dead Soviet soldiers) by the Russian military.

About _____ of the 6 million Jews killed in the Holocaust were _____.

There were about _____ million combined civilian and military deaths in Europe.

The video ends with a grand total of _____ million dead for the entire war.

2. Split Germany 💔 As the war came to an end, the victorious Allies chose a unique approach to facilitate the rebuilding and rehabilitation of Germany. Draw borders and label / color-code the maps below to show what Germany looked like from 1945 to 1949 (on the left map) and from 1950 to 1990 (on the right map).

3. UN founding 🌎 As the Second World War came to a close, a new international body was formed. Read the section "The United Nations is Formed" (p.385) to answer the following questions:

- What was the **goal** of the UN?
- What is the Security Council?
- Who are the 5 permanent members of the Security Council?
