Name:_____ Class:_____ Date:_____

WH&G Unit 4 Test: Industrialization, Mass Society, and Imperialism

Indicate the answer choice that best completes the statement or answers the question.

1. Although the Italian states were geographically and culturally divided between north and south, opposition to foreign rule bridged these differences and permitted Italian unification in 1870. Which foreign power's control over much of Italy led to Italian unification?
   a. Prussia
   b. France
   c. Austria
   d. Russia

2. What was the impact of a change in exports in Latin America after 1870?
   a. The amount of exports increased, which led to more prosperity for Latin American countries.
   b. The amount of exports increased, which created an incentive to break off alliances with Asian countries.
   c. The amount of exports decreased, which facilitated the growth of a wealthy middle class.
   d. The amount of exports decreased, which caused Western powers to invade to protect the economy.

3. One of the characteristics shared by middle-class Latin Americans after 1900 included
   a. Living in rural areas rather than in cities
   b. Seeking reform through revolution
   c. Viewing the US as a model for industrialization
   d. Voting for the interests of the lower classes

4. Although working conditions in British factories remained extremely poor, The Factory Act of 1833 made some basic labor reforms that most benefited
   a. Children
   b. Women
   c. Factory owners
   d. Men

5. What are the factors of production?
   a. Labor Unions, factories and capital
   b. Land, labor and capital
   c. Capitalism, Communism and Socialism
   d. Economic, cultural and demographics

WH&G Unit 4 Test: Industrialization, Mass Society, and Imperialism

6. After the failure of the Frankfurt Assembly, Germany was unified under Prussian rule in 1871 thanks to the "realpolitik" strategies of
   a. Giuseppe Garibaldi
   b. Louis-Napoleon
   c. Klemens von Metternich
   d. Otto von Bismark

7. One of the major results of the Industrial revolution was
   a. More products produced at a cheaper price making them available to more people
   b. Fewer products were produced making it difficult for people to buy them
   c. Fewer people lived in the cities
   d. The number of farms increased in order to feed the increasing population

8. Why were Western politicians and capitalists so interested in expanding their control in Central and South America?
   a. Because Western countries were concerned that industrialists in Latin America did not know how to extract resources like silver and sugar.
   b. The recent discovery of silver excited people in Europe, since they had never seen silver and were excited to learn what it could be used for.
   c. Modern factories in the West needed an ever-increasing supply of raw materials to turn into finished products
   d. The ruling elites in Central and South America were more willing to hand over resources to Europeans.

9. Which countries or regions in Africa were the only ones to avoid colonization by the superior military force of European countries?
   a. Liberia and Ethiopia
   b. Nigeria and Kenya
   c. Togo and the Congo
   d. South Africa and East Africa

10. The so-called “white-man’s burden” refers to the idea that Europeans …
    a. were at an economic disadvantage because of the high expense of maintaining their empires.
    b. were harmed by the millions of foreign immigrants that started to pour into Europe during the 19th century.
    c. had a moral obligation to bring Christianity, democracy, and capitalism to the backward natives in their empires.
    d. would be able to improve their global image thanks to ending race-based slavery across the world.

WH&G Unit 4 Test: Industrialization, Mass Society, and Imperialism

11. Identify the correct geographical, economic, and/or demographic description of the main regions of Africa.
    a. North—slave trade, West—dense jungles, Central—fastest white settlement, South—desert
    b. North—dense jungles, West—fastest white settlement, Central—desert, South—slave trade
    c. North—fastest white settlement, West—desert, Central—slave trade, South—dense jungle
    d. North—desert, West—slave trade, Central—dense jungles, South—fastest white settlement

12. Which natural resource, plentiful in Great Britain, contributed the most to the advance of industrial revolution?
    a. Flax
    b. Coal
    c. Oil
    d. Wood
